IT MUST BE SURVEYED.

We have never been backward in calling attention to the farming lands yet vacant north of the river. When we first called public attention to the value of that district, sufficient interest was excited to secure from the Government an understanding that the necessary surveys would be made at an early date, and the lands thrown open for settlement. Information respecting the country has only increased the general desire to see it in the market, but the Government, for some as yet unknown reason, has neglected to perform its duty respecting the survey, and so far as settlement is concerned, the country is worth no more to-day than it was years ago. Acknowledged by all who have travelled through it, to be one of the finest of farming sections, and its value to the town apparent to every resident, one can hardly understand the policy of the Government in refusing to spend a little money for the purpose of placing it in a position to induce settlement. This is one of the cases when the authorities could show a little appreciation for the local efforts in the matter of immigration the town has been putting forth during the past two or three years, apart altogether from a desire to see the Government keep faith on this question. It is important in the interests of both town and country, that this valuable section should be placed within the reach of those anxious to locate in our midst.

HUDSON BAY RAILWAY.

"A road from Prince Albert running in an easterly direction to connect with the Winnipeg and H. B. R.R., would run through a country which is regarded, by some explorers and others as without exception, the very richest and finest agricultural and stock region in Canada."—The Commercial.

The above is a fair statement of the country to which it refers, its accuracy is vouched for by dozens of settlers within this district who know the country and are qualified from experience to form an estimate of its value. In the face of reliable opinions such as these one can hardly realize the wonderful development which must take place in this vast region once the H. B. R. is an accomplished fact. When that time comes, and when millions of bushels of grain together with vast quantities of other merchandise are seen passing forward and back over this route and the one that will connect Prince Albert with it, the happy family led by Laurier, Mills, Cartwright, Cameron and McMillen, can look back with scant satisfaction to the obstruction tactics adopted by the Liberal party in Parliament when the bill came before the House. The Saskatchewan, with that slavish support of its political masters, which has always characterized it, undertakes to excuse their actions on this question, but intelligent Liberals are not caught with such chaff. For years they have been demanding that the road be built, and they refuse to follow leaders who undertook to obstruct the carrying out of a united people's reasonable demand.

UNOCCUPIED LANDS.

A serious drawback to enjoyment when one takes a drive over any of the trails running south and east of the town is the large amount of vacant lands which must be passed. We can understand the absence of settlers on Railroad and on Government lands, but the fact of even sections being so long unoccupied is not so easily explained or nearly so satisfactory to those taking an interest in the development of the country. We have no recollection of homestead duties to any extent having been performed on many sections adjacent to the town, so one is led to the conclusion that many desirable locations are held under entries liable to cancellation. This, if true, is an unfortunate situation of affairs, and one that should be immediately inquired into. The homestead inspector should be in possession of all the necessary information, and if not, an immediate inspection of all homesteads entered within a certain area, should be made and a list of those liable to cancellation posted up in the Land Office for public inspection. We believe if this matter is looked into it will be found that choice locations can be secured for many of those people who are now looking up our district with a view to becoming actual settlers.

THE BY-LAW.

Ratepayers must not lose sight of the By-law on which judgment will be passed next Saturday. The interests of the town demand that large public improvements should be gone on with. The Council have taken the matter up and now ask public authority to proceed with the work. This authority was almost unanimously given on a previous occasion, and owing to a technical error the vote must be re-taken. Let there be no retrogressive action on the part of ratepayers. In view of the last vote certain expenditures have been entered into, necessity demands further outlays and the taxpayer will be wise in taking a reasonable view of the situation, and again affirm their faith in the future of the town, as they did when the previous vote was taken.

EXHIBITS

We understand most of the directors of the Agricultural Society are favorably inclined to adopt the suggestion of the Immigration Committee respecting an eastern exhibit. No time should be lost in coming to a final decision on this important question. The Immigration Committee should interview the President of the Society and try and arrange for a joint meeting when the several aspects of the case might be fully discussed, and an early decision arrived at as to what action is to be taken. The season is advancing, many natural grasses are just now in that condition most favorable for exhibition purposes, and should not be longer neglected. Once our eastern exhibit is definitely decided upon many farmers will start making a more careful preparation than they might undertake if intending only to take part in the usual local display.

The Saskatchewan may give utterance to the feelings of its editor or it may go further and express the policy of those deluded people who thought to grow rich as members of a joint stock company. It may by chance, at long intervals strike the right cord and voice the sentiments of a majority of our people, but when it starts the hedging process, and undertakes to give a free lecture on the temperance question, some people read the article, and everybody smiles.

SCHOOL PICNIC.

The annual picnic of the pupils of No. 10, East End Public School took place on Saturday, the 18th inst., on the farm of Mr. Dan. Shannon. A bountiful repast was provided for the children by the liberality of their parents, and thanks are specially due to those ladies who attended the picnic and ministered to the physical wants of the hungry and thirsty little crowd. A pleasant call was made on Morrison McBeath Esq., and fresh joyous youth paid its homage to the aged pioneer of 1815 by giving him an impromptu performance of some of their songs and exercises. Foot races, jumping and other sports were then engaged in by the pupils, and prizes were awarded to the successful competitors. Then followed supper, and as the sun was sinking in the west, the picnic party returned home, stopping for a few moments at Bellevue Point to see the fine view of our noble Saskatchewan down whose rapid current far beneath us there floated just then ten barges of the H. B. Co., en route for Cumberland House. All spoke of having spent a most enjoyable day.

BIRCH HILLS.

A number of settlers living here were the guests of Orange Lodge No. 1532, at their celebration at Kinitino Hall on Monday, July 13. After partaking of a splendid dinner, bountifully and tastefully prepared by the ladies, the large assemblage, numbering fully three hundred, was called to order by the chairman for the occasion—Mr. Kernaghan—Grand Secretary for Manitoba and the Northwest Territories, who gave some very interesting figures relative to the standing of the Order, as regards finances and membership, showing the same to be prospering. He then called on Mr. Thos. Irvine—Worshipful Master of the Lodge, who dwelt chiefly upon historical facts connected with the Order, its origin and principles. Altogether he delivered an instructive and eloquent oration. Other speakers, among whom were Mr. Ellis, sr., Rev. Mr. Wright and Mr. Muirhead, each gave short but spicy addresses. A vote of thanks was tendered the speakers and the ladies, which was responded to for the speakers, by Mr. Wright and by Mr. Beatty on behalf of the ladies. After singing "God Save the Queen" there was a few closely contested horse races. From evening until early morning, the amusement was dancing in the hall. Excellent music was furnished by Messrs Taylor and Bird. The officers and members are to be congratulated on their success in making the picnic an enjoyable one to all the guests.

The crops are "looming up large." Grain is all in head; new potatoes are large enough for use; everything is flourishing.

Our school is having its much needed two weeks vacation now and will re-open Aug. 3. The new school house is now completed and is a very neat building.

Mowing will soon be started. No difficulty will be had in securing a sufficient quantity for the winter use.

Services are held here each Sunday at 10:30 a.m. by Mr. Wright and Mr. Gilmore alternately.

James Cunningham, Charles G. Bird and Jos. Bird, of Halcro, have taken claims in this vicinity, and are now making improvements on them.

Mr. Anderson, C. E., of India, where he was in the employ of the British Government for a number of years, is now on a prospecting tour through this part, with a view to finding a desirable location to start a stock farm. He is very highly pleased with the country.

A pleasant social affair was held at T. Hourie's house lately. Everyone went to have a good time and none were disappointed.

THE NORTHERN LIMIT OF PRODUCTION.

RICHARD WAUGH, MANITOBA.

It is now many years since Dr. John Torrey propounded in the "American Journal of Geology" the doctrine that cultivated plants reach their highest perfection at the northern limit of production. This doctrine is not universally applicable, even in the vegetable world, but it is approximately accurate, not only for plants but for domesticated animals as well, and especially is it so with the products of the temperate zone.

The vegetation of the Northwest, of which for the last few years the writer has had an extensive range of observation, furnishes many special instances in support of the theory, and it is strongly evidenced by all the facts. The very finest sample of wheat I have ever obtained from Dakota was from a recently settled upland on the 49th parallel, close to Manitoba. Ladoga, the early ripening variety of Russian wheat introduced by the Dominion government, has never, on equally as good land further south, attained the perfection that it did last year at Prince Albert on the Great Saskatchewan, a thousand miles northwest of St. Paul, Minn. Red or Scotch Fife wheat of the most perfect type, weighing sixty-six pounds to the bushel, plump and bright, from the northern margin of Manitoba, has never within my knowledge been excelled by anything produced further south. Cabbages, weighing, when stripped clean, thirty-two pounds per head, and cauliflowers that without a leaf on them weighed sixteen pounds of delicate white curd have been repeatedly grown in the market gardens of Winnipeg, Manitoba; and other vegetable products, that space forbids me naming, do equally well under the stimulating effect of a far northern sun and suitable climatic and soil conditions.

Other conditions being equal, I claim that superior vitality begot of the stimulating Northern atmosphere, is a well established principle, not only for cultivated plants and domestic animals, but even for man himself.—American Agriculturist.

Michael Davitt, the celebrated Irish agitator, is expected to visit here in August and give a series of lectures.

Mr. F. Steele, of Steele & Wing, photographers, Winnipeg, has had to again postpone his departure for another week owing to the continued rush of work at his tent studio. Last week Mayor Johnson lost a valuable driving horse by drowning. Mr. Fawcett has completed the burning of his first kiln of bricks, and a first-class article has been turned out. Brick from this kiln is now being delivered at the school and church building. Another kiln of about 100,000 is almost completed and ready for the fire. We are pleased to learn that Mr. Fawcett has received an order for 400,000, which will keep the yard busy for some time.

Auctioneer Buckley held a sale at Mr. A. H. Woodman's residence on Thursday last, when fair prices were realized. As there was not sufficient time to complete the sale on that day, it will be continued on Wednesday next, August 5th. Mr. Buckley will at the same time and place offer for sale another lot of valuable household furniture. For particulars read advertisement in another column.

Mr. Steele, of Steele and Wing, photographers of Winnipeg, is still here and busy as ever, turning out most excellent work. Last week he took a fine picture of the members of Kinistino Lodge, A.F. & A.M.; also a group of the Northwest League rifle team. Yesterday evening he photographed the members of Rupert Lodge, Royal Templars of Temperance in group. Mr. Steele has received a number of his orders back from Winnipeg, and for style and finish they cannot be surpassed anywhere.

A serious accident, which resulted fatally, happened at Carlton on Saturday last. Peter Jansen, a native of Denmark, aged 24 years, was cutting logs for A. N. Peterson when a tree was accidentally felled on him, knocking him down and a dry limb on the tree entered his mouth and came out at his throat. Dr. Stewart was called in and done all he could for the sufferer, but he died on Sunday. The deceased was a new comer and had taken up a homestead at Carlton.

The members of the Methodist church and their pastor the Rev. Mr. Stacey, are to be congratulated on the success of their picnic on Friday last. Beautiful grounds, and the pretty lake adjoining, together with the various means provided for amusement made the day a delightful holiday for those who were fortunate enough to take part in the pleasures. The ladies were kept busy all day dispensing fruits, creams and confectionery from the booths. Rev. Messrs. Stacey, Rochester and Woodsworth gave stirring addresses, and Mr. McCullough gave a recitation in capital style. At 5 o'clock sharp, all sat down to a well loaded table and did ample justice to the choicest cooking we have yet seen at a picnic gathering. About 8 o'clock the start for home was made, everybody satisfied with their day's pleasure.

GOLDEN

STORE

Have Decided to Hold a Special Midsummer Clearing Sale.

SPECIALTIES:

All Light Summer Prints, Dress Goods, Hats, Cloth

At Cost, and Some Goods for Less than Cost.

All we want to do is to turn these goods into ready money, and our low prices will do it. You may ask how we can do this and pay expenses. Let us reason together for a moment. We have three or four reasons. First, you know, money is scarce and worth from ten to fifteen per cent, in this country. So you see it is better to give you a few lines at cost twice a year, rather than carry the goods over until next summer. We are going to invest the proceeds of this sale in Fall and Winter Goods at a small margin, which will be another benefit to you and us.

Second reason—We must make room for large consignments that will be received in a few weeks from European, Montreal and Toronto markets.

Third reason—Our prices are a panacea for the ills of hard times. We have no rent to pay, no clerks to pay, and our expenses are very, very small indeed.

Winning Points—Low Prices, Reliability, Fair Dealing, Great Variety, Golden Bargains, Honor.

We have no percentage of loss on credit sales to charge on the goods you buy. The sale is now going on. Give us a call and we will convince you who the real leaders in low prices are.
